

LEMTRADA REMS PROGRAM OVERVIEW

What is the LEMTRADA REMS (Risk Evaluation and Mitigation Strategy) Program?

A REMS is a strategy to manage known or potential risks associated with a drug. It is required by the FDA to ensure that the benefits of the drug outweigh its risks. Due to serious risks of autoimmune conditions, infusion reactions, and malignancies, LEMTRADA® (alemtuzumab) is only available through a restricted program called the LEMTRADA REMS Program.
